How to login at home

- Go to this URL: https://h100002061.education.scholastic.com
- Students Log in using student ID number for both username and password.
- **Please sign out when finished.**

Workstation Requirements

SAM and SAM Suite version 2.5.x software run on student and teacher workstations that meet the following requirements:

- **Browser**: Microsoft Edge 25.1 or later, Internet Explorer 11.x; Safari 6.x, 7.x, 8.x; Firefox 32.x; Chrome 37 or later. Browsers must support HTML5.

- **Operating System**: Macintosh OS X 10.8.x through 10.11.x; Windows 7 Professional, Windows 8.x through 10.x; Chrome OS version 32 or later*

- **Memory**: 4 GB of RAM, based on OS version

- **Processor**: Intel dual-core or later (Power PC Macintosh computers not supported)

- **Network**: Network Interface Cards supporting TCP/IP (wireless networks, including 802.11a, 802.11g, or 802.11n, are supported, but performance may be limited by the network's bandwidth capacity)

- **Screen**: 1024 x 768 resolution or higher

- **Plug-ins**: Flash 11.4 or later (set to allow the microphone), Adobe Reader, or Adobe Acrobat 9 or later

- **Other**: Headphone and microphone required for use with *READ 180 Universal, READ 180 Next Generation, READ 180* Enterprise Edition, *System 44* Next Generation, *System 44* Enterprise Edition, and *iRead*; headphones required for *MATH 180, FASTT Math* Next Generation, *FASTT Math* Enterprise Edition, *Fraction Nation*, and *HMH Phonics Inventory*. Printer for teacher, DVD player(s) for *READ 180* and *System 44* audiobooks and anchor videos. Check hardware documentation for compatible accessories.

Chromebooks & Google Tablets

Chromebooks and Google Tablets are devices manufactured under license from Google that use Google's own operating system, Chrome OS, and the Chrome browser. Beginning with version 2.3, SAM and SAM Suite software is compatible with Chrome OS under the following technical guidelines:

- Chrome OS version 32 or later
- Intel processor
- 10 inch or larger screen (no smaller devices or mobile phones)
- Headphone and microphone
- Browser and Flash settings to match workstation requirements (*page 4*). Some changes to
- browser or system settings (i.e., browser full-screen, hiding toolbar, etc.) may be required.

Some browser-based programs may not be fully compatible with touch screens and virtual keyboards; an external keyboard or pointer may be required with some Chromebook models. (Thus, a separate mouse and keyboard may be required.)

Recommended: Setting Chrome OS to the **Stable** channel in the Chromebook settings. On the Stable channel, Google will push out an update to Chrome OS approximately every six weeks. These updates may result in performance changes to the software; in such cases HMH will identify the root cause and resolve the issue, which may include settings changes, Chrome OSupdates, or software updates.

Browser Settings

All workstation browsers must have the following settings selected:

- **Flash**: Should be version 11.4 plug-in (default setting) and must not be disabled

- **JavaScript**: Must be enabled

- **Pop-Up Blockers**: Must be disabled, or Student and Educator Access pages excepted

- **Security Level Settings**: Default settings supported; IE Maximum Security levels not
- Supported

- **Images**: Default settings are supported; Image Display must not be turned off

- **Privacy Settings**: Default settings supported; Maximum Privacy Setting (disabling cookies)
- not supported

- **Mixed Content**: Browsers should allow mixed content (e.g., http:// and https://)

- **Character Set**: It is expected that Unicode UTF-8 is set as the default character set.

- **Internet Explorer Compatibility Mode**: Unless otherwise advised by Technical Support, this should not be used for websites associated with SAM and SAM Suite software.

Mobile Devices

All mobile devices must meet the following requirements:

- **Operating System**: iOS 9.0 or later running on iPad 2 or later; Android version 5 or later running on devices with a screen resolution of 1280 x 800; Windows 8.1

- **Screen**: 10-inch screen recommended. 7-inch screens with 1024 x 768 resolution (iPad Mini) are also supported. Other 7-inch screens will not display all content. Smaller devices, including iPhones, are not supported.

- **Storage**: Approximately 2 GB of space per app for each *READ 180, System 44, iRead, or MATH 180* app; other apps require less space.

- **Other**: Headphone and microphone are required.

- **Notes**: SAM and SAM Suite software are compatible with Samsung Galaxy 10.1 and Nexus 10-inch. SAM and SAM Suite software **does not** support apps that emulate Flash browser support on the iPad. Some Windows 8.1 browser-based programs may not be fully compatible with touch screens and mobile keyboards. External keyboards and pointers may be required.
